PROFESSIONAL SUMMARY

Computer Systems Engineer with IT support and implementation experience at BBVA, public-sector support and networking, and functional testing in automotive manufacturing (Marelli). I build defensive security tools in Python (log analysis, suspicious-login detection, secret scanning) and AI applications. Preparing for CompTIA Security+ and the Google Cybersecurity Certificate.

SKILLS

Support & networking: help desk, incident troubleshooting, TCP/IP, OSPF, NAT, ACLs, switches, Windows, Linux, AWS fundamentals
Cybersecurity: log analysis, brute-force detection, secret scanning (Gitleaks), access and credential management, data protection
Development & AI: Python (intermediate), JavaScript, TypeScript, Java, PowerShell, SQL, FastAPI, Node.js, Git/GitHub, generative AI
Management & tools: Scrum/Agile, Excel (databases and metrics), Microsoft Office, Canva, CapCut, Figma, social media
Languages: Spanish (native) · English B1 (intermediate)

WORK EXPERIENCE

Marelli — *Test Technician* · Tepotzotlán, State of Mexico — **May 2026 – Jul 2026**

- Ran functional tests on electronic circuit boards before customer delivery and during post-delivery verification.
- Built and maintained an Excel database to track test results and repaired materials; backed up production data.
- Created a component training web page for the team.

BBVA Technology America — *IT Support & Implementation Technician* · Mexico City — **Aug 2025 – Oct 2025**

- Developed biometric authentication features (face and fingerprint recognition) for Colombia, Spain and Venezuela.
- Fixed licensing vulnerabilities to prevent unauthorized use.
- Managed user credentials on Linux and supported international clients in a two-person team.
- Contributed to the Java development of the "Blue" digital assistant.

Junta de Conciliación y Arbitraje (labor board) — *IT Technician (public-service internship)* · Cuernavaca, Morelos — **Aug 2023 – Sep 2024**

- Provided first-level support and equipment maintenance; fixed connectivity issues on 50+ workstations and configured switches.
- Helped restore the office network after an outage.

Hayward and Burgers Camping — *Maintenance Assistant* · Boston, USA · English-only workplace — **Jun 2024 – Aug 2024**

SEDAGRO (Morelos State Agricultural Ministry) — *IT Intern* · Cuernavaca, Morelos — **Aug 2021 – Dec 2021**

- Installed structured cabling, diagnosed internet outages and set up printers and peripherals.

SELECTED PROJECTS

- **Cybersecurity Python Lab** *(Python, pytest)*: SOC analyst tools that count OpenSSH login attempts, search logs by IP, CIDR range and date, detect repeated failed logins and generate reports; with automated tests. **GitHub**
- **ALBA** *(Python, Gitleaks)*: local, read-only security scanner for web and Node.js projects that finds exposed secrets, risky CORS, TLS, cookie and Docker settings, and dependencies with known vulnerabilities; outputs HTML, Markdown and JSON reports. **GitHub**
- **CyberQuest Academy** *(JavaScript, Node.js, PWA)*: free cybersecurity web academy with a network lab, simulated terminal, in-browser SQL, Security+ prep and SOC cases; API with rate limiting and restricted CORS. **Live site** · **GitHub**
- **SOPHYA** *(Python, FastAPI, JavaScript)*: Spanish-language AI assistant (beta) with memory, voice, web research, and email and calendar tools; I built the backend, frontend and AI integration. **Live site**

Other: Smucky's by Chavamon, online store for my clothing brand (Firebase, Mercado Pago) · **Loyalty platform** (TypeScript, PostgreSQL, Docker) · **CHAVAMON**, video editor (Electron, React) · **English Speaking Coach** (Next.js, voice AI)

EDUCATION

Graduate Program in Technology Management — Universidad Internacional (UNINTER) · online — **Feb 2025 – Apr 2026**

B.Eng. in Computer Systems Engineering — Universidad Internacional (UNINTER) · Cuernavaca · degree conferred Sep 2026 — **2020 – 2024**

CERTIFICATIONS & COURSES

- **In progress:** Google Cybersecurity Certificate (Foundations of Cybersecurity completed, Oct 2026) · CompTIA Security+ (SY0-701)
- **Diploma in Generative AI & Automation**, Top Learning, 112 hours (2025) · **Scrum Master Certification** (LearnQuest course, 2025)
- **Cisco CCNAv7: Introduction to Networks; Enterprise Networking, Security & Automation**, Cisco Networking Academy courses (2023), not the CCNA certification · **Cisco Advanced Enterprise Networks**, UNINTER, 81 hours (2024)
- **OpenSUSE Linux OS Fundamentals**, EDUCBA/Coursera (2025) · **Introduction to Git and GitHub**, Google/Coursera (2025) · **Introduction to HelpDesk**, Udemy (2026) · **Java Level 3**, TR Network (2026)
